WORK EXPERIENCE

September 2022-June 2023

Frontend Developer

- 🏢 Exalt Application Ltd
- 📍 Lagos, Nigeria

Supported the team in fixing numerous bugs vastly improving the performance of the company's courier website. Tested and Deployed design features promptly. Boosted the productivity of the frontend team by 30% by ensuring that we were in sync with the remaining teams and introducing a collaboration tool (Jira).

I also assisted the backend team by suggesting optimized infrastructure for our projects' models.

Frequently wrote Unit tests for our Next.js components with Jest

The technologies used include Next, Typescript, Antd, Tailwind, Google Map API, Node.js (Express), MongoDB and AWS

- I acted as the team lead for a month following the resignation of the previous team lead. During this period
- I led the frontend team in successfully deploying a fully-packed event management system within 3 weeks.

October 2021-June 2023

Frontend Developer (Consultant)

- 🏢 OEStudio
- 📍 Nigeria

Upgraded the company's applications from React with Javascript to Next.js with Typescript, thereby improving the scalability, SEO and performance of our applications by at least 10%. Pushed the company's merchandise dashboard (ElluPP) to production within four days. Analyzed the backend model infrastructure in conjunction with the backend team and identified improvements that could be made that would result in a shorter user journey.

The technologies used include HTML5, React, Next, Typescript, Tailwind, Node.js (Express), MongoDB, MySQL, Digital Ocean and Jest

- I pushed an e-commerce website to production within 4 days due to the urgent need of the organization.
- Advanced my knowledge of Typescript with the organization

April 2022-August 2022

Frontend developer

- 🏢 OXAsusu
- 📍 Abuja, Nigeria

Collaborated with the team in developing a responsive web landing page with React.js and Tailwind CSS. I also worked on the Administrator Dashboard using Next.js, HTML5 and Tailwind CSS. I assisted the backend team with coming up with the right data infrastructure for the applications.

May 2021-April 2022

Junior Frontend Developer

 Providence Research Ltd
 Nigeria

Updated the Company's loan app administrative dashboard from PHP to Vue3 and fixed numerous bugs in the User-interface, User experience, responsiveness and authentication features. Optimized the performance of the admin dashboard by frequently updating the dependencies and reduced the number of lines of codes by about 8%.

June 2020-May 2021

Junior Frontend Developer

 Pelmedic
 Nigeria

Contributed to the development of Pelmedic with HTML, CSS, Javascript and PHP.
Intermittently meeting with stakeholders and clients to have a better knowledge of the best user interface flow for the platform.

Restyled templates when required

February 2019-February 2020

Intern Frontend developer

 Pelmedic
 Nigeria

Assisted the frontend team by developing the Pelmedic layout with PHP, HTML and CSS so the other team members could focus on the business logic of the application.

Made User Interface corrections based on customers' demand.
